ADVERTENCIA

Un objetivo manifiesto del Ministerio de Educación es combatir el sexismo y la discriminación de género en la sociedad ecuatoriana y promover, a través del sistema educativo, la equidad entre mujeres y hombres. Para alcanzar este objetivo, promovemos el uso de un lenguaje que no reproduzca esquemas sexistas, y de conformidad con esta práctica preferimos emplear en nuestros documentos oficiales palabras neutras, tales como las personas (en lugar de los hombres) o el profesorado (en lugar de los profesores), etc. Sólo en los casos en que tales expresiones no existan, se usará la forma masculina como genérica para hacer referencia tanto a las personas del sexo femenino como masculino. Esta práctica comunicativa, que es recomendada por la Real Academia Española en su Diccionario Panhispánico de Dudas, obedece a dos razones: (a) en español es posible <referirse a colectivos mixtos a través del género gramatical masculino>, y (b) es preferible aplicar <la ley lingüística de la economía expresiva> para así evitar el abultamiento gráfico y la consiguiente ilegibilidad que ocurriría en el caso de utilizar expresiones como las y los, os/as y otras fórmulas que buscan visibilizar la presencia de ambos sexos.

2018: The value of respect

The beginning of a new school year always gives us hope. All the children and adolescents get prepared, not only to study and learn, but also to meet their classmates. Sometimes we come across new faces in class, and that is a good sign, because we see that other students are joining our institution. This also means that it is a good opportunity to interact with people other than those we already knew and thus make new friends.

We know that the school is a good place to grow and share many positive things, and from time to time also to face problems. Being supportive and supporting those who need help is an advice we should follow at home, at school and in the community.

The new school year opens as an experience that challenges us and at the same time gratifies us. We are part of the educational community, teachers, parents, legal representatives and relatives. We are all responsible for accompanying them in the improvement of their education, in improving the quality of their knowledge and in the experience of studying and learning to grow as better human beings and citizens.

A new school year means a job dedicated to expanding positive relationships, which we call respect. No one can be left out of this everyday practice at school and in the community. This value of life is radically opposed to contempt and expulsion. If we want a fair education, in which we can all participate, Respect for others means accepting their own ways of being, their individual, social, physical and cultural characteristics; their way of thinking and appreciating the world; their customs and traditions; their skills and abilities. This is the best proposal that the Ministry of Education can make at the beginning of the new school year.

Respect for others means respect for each and every one of us. Respect does not accept any aggression, be it physical, psychological or sexual. It implies recognizing ourselves in the people around us. Teachers, students and partners, we are all human beings who have the same rights. That means the right to have our own point of view, the right to change our minds, to make mistakes, the right to create a world of our own in which to live.

This 2018 - year of respect - is inspired by the principles of zero tolerance to abuse and violence, to any type of discrimination. We promote gender equality (equality between men and women), social justice, solidarity, a culture of peace, coexistence between different cultures and traditions, and the care of the environment. All these are values that we must spread and live fully every day in the educational community.

This is a year to defend the rights of students with a lot of determination and commitment. Our program "More united, more protected" was created to prevent violence within the educational system. We see education as an integrated whole; we work to improve our environment with important curricular innovations such as the methodology of the land of children and young people of good living. The incorporation of ancestral knowledge to education, the development of the arts, good reading manners and an ambitious digital agenda are part of our proposal at the beginning of the new school year.

This is the integral action that we now promote, in which children and adolescents participate as a decisive force within the educational community. Let's continue walking with good step and with respect in this 2018.

Mohandas Gandhi was born in 1869 in Porbandar, India. He was an important political leader. India's independence was possible thanks to his courage. **At that time**, Indian people were under British rule and were victims of racial discrimination.

In 1888, Gandhi was a law student in London, England. He was only 19 years old. At the beginning, his life in London wasn't easy. He was a victim of racial discrimination because he was colored. But this situation wasn't an obstacle for him. He

was brave and hardworking, so he finished his law studies.

Two years later, he was a lawyer in his homeland, India. His objective was to find a job and help his people, but he wasn't successful. For this reason, **in 1893**, he accepted a job as a legal adviser in South Africa. In this country, the Indian community was a victim of racism and was denied civil rights only because it was colored. This situation wasn't acceptable and some years later Gandhi became a political leader. He was passionate about getting justice for his brothers.

After 22 years in South Africa, he was back in India. **During 1915**, Gandhi visited different places of the country with the purpose of

getting familiar with people's living conditions and the injustice they experienced. **In the many years to come**, he was involved in political campaigns to protect the rights of everybody.

Elizabeth I

2. Read.

The Renaissance Fair is a popular event in the United States that imitates a period in history called the Renaissance. The Renaissance was a cultural movement from the 15th to the 16th century.

The main idea of the Renaissance Fair is to represent a typical village in England during the reign of Queen Elizabeth I. This period was important for the progress of the arts in England. Famous characters like the writer William Shakespeare and the explorer Sir Francis Drake were born around that time.

During the Renaissance Fair, people usually dress up as characters of the past like kings, pirates, or queens. They also enjoy musical events, eat typical medieval food and buy objects of ancient history. One of the best attractions is the group of actors that represents famous historical characters like Shakespeare, Henry VIII or Queen Elizabeth. Hey-army! Keep your march and follow your captain.

Soldiers were hungry and there was little food.

One of my favorite memories is my trip to Margarita Island in Venezuela 2 years (6) ago. I (6) ago there with my parents, my brother and grandma.

I remember grandma was very happy because it was the first time she saw the sea, but traveling by plane was a very (7) scary experience for her. She didn't like it.

We (8) stayed at a very luxurious hotel in front of the beach. It was awesome! I (9) went the sea through my window. My grandma was delighted because the rooms were comfortable and the food at the hotel was delicious. The hotel was great but we (10) didn't stay there all day. We walked around the city and visited a variety of beaches.

We (11) traveled a lot of interesting things. At "El Yaque" beach, I (12) traveled a horse for the first time! It was fun. My parents' favorite beach was "Agua" beach. There, they had a relaxing time. They also (13) traveled a lot of things in the shops because they were cheap. My grandma liked the beaches too, but she loved visiting the churches. I was so happy that my grandma had a great time with us. I'm glad that we (14) traveled that great experience with her. Her smile is unforgettable.

ADVERTENCIA

Un objetivo manifiesto del Ministerio de Educación es combatir el sexismo y la discriminación de género en la sociedad ecuatoriana y promover, a través del sistema educativo, la equidad entre mujeres y hombres. Para alcanzar este objetivo, promovemos el uso de un lenguaje que no reproduzca esquemas sexistas, y de conformidad con esta práctica preferimos emplear en nuestros documentos oficiales palabras neutras, tales como las personas (en lugar de los hombres) o el profesorado (en lugar de los profesores), etc. Sólo en los casos en que tales expresiones no existan, se usará la forma masculina como genérica para hacer referencia tanto a las personas del sexo femenino como masculino. Esta práctica comunicativa, que es recomendada por la Real Academia Española en su Diccionario Panhispánico de Dudas, obedece a dos razones: (a) en español es posible <referirse a colectivos mixtos a través del género gramatical masculino>, y (b) es preferible aplicar <la ley lingüística de la economía expresiva> para así evitar el abultamiento gráfico y la consiguiente ilegibilidad que ocurriría en el caso de utilizar expresiones como las y los, os/as y otras fórmulas que buscan visibilizar la presencia de ambos sexos.

2018: The value of respect

The beginning of a new school year always gives us hope. All the children and adolescents get prepared, not only to study and learn, but also to meet their classmates. Sometimes we come across new faces in class, and that is a good sign, because we see that other students are joining our institution. This also means that it is a good opportunity to interact with people other than those we already knew and thus make new friends.

We know that the school is a good place to grow and share many positive things, and from time to time also to face problems. Being supportive and supporting those who need help is an advice we should follow at home, at school and in the community.

The new school year opens as an experience that challenges us and at the same time gratifies us. We are part of the educational community, teachers, parents, legal representatives and relatives. We are all responsible for accompanying them in the improvement of their education, in improving the quality of their knowledge and in the experience of studying and learning to grow as better human beings and citizens.

A new school year means a job dedicated to expanding positive relationships, which we call respect. No one can be left out of this everyday practice at school and in the community. This value of life is radically opposed to contempt and expulsion. If we want a fair education, in which we can all participate, Respect for others means accepting their own ways of being, their individual, social, physical and cultural characteristics; their way of thinking and appreciating the world; their customs and traditions; their skills and abilities. This is the best proposal that the Ministry of Education can make at the beginning of the new school year.

Respect for others means respect for each and every one of us. Respect does not accept any aggression, be it physical, psychological or sexual. It implies recognizing ourselves in the people around us. Teachers, students and partners, we are all human beings who have the same rights. That means the right to have our own point of view, the right to change our minds, to make mistakes, the right to create a world of our own in which to live.

This 2018 - year of respect - is inspired by the principles of zero tolerance to abuse and violence, to any type of discrimination. We promote gender equality (equality between men and women), social justice, solidarity, a culture of peace, coexistence between different cultures and traditions, and the care of the environment. All these are values that we must spread and live fully every day in the educational community.

This is a year to defend the rights of students with a lot of determination and commitment. Our program "More united, more protected" was created to prevent violence within the educational system. We see education as an integrated whole; we work to improve our environment with important curricular innovations such as the methodology of the land of children and young people of good living. The incorporation of ancestral knowledge to education, the development of the arts, good reading manners and an ambitious digital agenda are part of our proposal at the beginning of the new school year.

This is the integral action that we now promote, in which children and adolescents participate as a decisive force within the educational community. Let's continue walking with good step and with respect in this 2018.

To: Susana Quispe
Subject: My Christmas in Iqaluit

Font 12

Hello Susana,

How are you these days? I hope you're doing well. My vacation trip around the Arctic Circle is going great, and I'm learning lots of things about the beautiful people here. They call themselves Inuit, which is a plural word to indicate the families that are part of the Eskimo culture. Eskimos live in the northern part of Canada, Russia and the island of Greenland . Today I'm visiting Iqaluit, the capital of Nunavut, an Eskimo reservation with amazing landscapes. From my window I can see a frozen lake and such majestic mountains. The landscape is absolutely amazing. I'm writing this letter while Aguta, the mother of the Haktanooch family, is getting ready to celebrate Christmas. Usually families eat together and sing traditional Inuit songs. The food is completely different because they love raw meat (it's not cooked!). They usually eat caribou (similar to an antelope), seal and char (a type of fish from the Arctic zone) .

Christmas takes place on December 25th, as in Peru, but it's celebrated slightly differently. Amak, the grandfather of the family, is teaching me how to eat with my hands and cut the pieces of meat. I enjoy the taste of raw meat, but I prefer traditional Peruvian food. Right now, Aguta's children are singing and their uncles are playing tambourine-like drums.

Inuit people love nature and live in harmony with it. For example, they don't use cars or buses for transportation as we do. They use sleds, which are pulled by dogs. They are an effective means of transportation. I'll take lots of photos to show you when I come back. Please say hello to Pedrito, Ramón and Clara. I miss you all so much!

Lots of love,
Alicia

2. Read the text, check your answers in exercise 1 and answer the questions.

The *suffragettes* were a group of women who devoted their lives to defending their right to vote in political elections. The original movement was born in England in the 19th century, but the philosophy and beliefs of the group were rapidly spread across other European, American and Asian countries. The word 'suffrage' was associated with the women's movement to have the right to vote.

At that time, voting rights were exclusively for men. Women were not considered smart enough to make important decisions, so they were relegated to more 'appropriate' roles for them: taking care of children, cleaning the house, cooking, and so on. However, a group of women started to fight for their right to participate as equal citizens.

a. Why is the word *appropriate* in quotation marks in line 7?

The most remarkable member of the Suffrage Movement was Emmeline Pankhurst. She was born on July 15th, 1858 in Moss Side, Manchester, England. Her maiden name was Emmeline Goulden. The Gouldens were social activists and supported the women's suffrage, but they wanted her to marry young because she was 'only' a woman. However, Emmeline attended the *École Normale de Neuilly* in Paris.

b. Why is the word *only* in quotation marks in line 13?

In 1878, when she was 20 years old, she married Richard Pankhurst who supported her political activities. In the many years to come, she was involved in political campaigns that looked to change the rigid and extremely conservative Victorian society. In 1913, she was arrested

Emmeline Pankhurst died on **June 14, 1928** shortly after women had the right to vote. **Two years later**, a statue in her honor was inaugurated in the Victorian Tower Gardens. Now, **more than a hundred years later**, we still remember the suffragettes for having
